

TRAIN-THE-TRAINER COURSE

on Hybrid Minimally Invasive
Surgical Techniques

Join a cutting-edge training program to enhance your skills as a surgical educator in the era of simulation.

Overview

Our program provides the necessary knowledge to become a leader in surgical education capable of teaching the complex skills set required to train the next generation of surgeons.

Objectives

Develop expertise in teaching technical and non-technical skills face-to-face and remotely.

How does It work?

- a) Online educational modules accessible 24/7 - May 2 to May 8
- b) Face-to-face online meetings - May 9 to May 12

Topics include:

- 1. Fundamentals of surgical training
- 2. Surgical simulation
- 3. e-training: virtual classrooms, collaborative virtual spaces, social networks, AI, and e-learning
- 4. Soft skills: collaborative work, leadership and mentoring, problem-solving skills, resilience, and ethics
