

# CLINICCAI 2021

1<sup>ST</sup> CONFERENCE ON CLINICAL TRANSLATION OF MEDICAL  
IMAGE COMPUTING & COMPUTER ASSISTED INTERVENTION

September 29<sup>th</sup>, 2021 - Strasbourg, FRANCE

## The first Clinical Day at MICCAI !

*Don't miss the chance to discuss your research on the more **translational and clinical aspects of medical image computing, computer-assisted intervention, and medical robotics** at the first edition of CLINICCAI!*

*This international event **dedicated to healthcare practitioners** will be a fantastic opportunity to network with renowned biomedical scientists and get inspired by the scientific sessions and social happenings of the 24<sup>th</sup> edition of the MICCAI conference.*

*Healthcare practitioners from academic centres and start-ups are kindly invited to **submit their abstracts by May 24, 2021, for a chance to compete for the CLINICCAI Best Presentation Award!***

*CLINICCAI will be held on September 29, 2021, as a **hybrid event** - allowing both onsite and online participation. Presenting healthcare practitioners can take advantage of a **discounted registration to attend MICCAI 2021**, to be held from September 27 to October 1, 2021.*

## Topics:

- Digital patient & pathology
- Computer-aided diagnosis
- Predictive modelling of risks
- Diseases and patients' outcomes
- Preoperative planning and surgical guidance
- Image-guided interventions
- Immersive technologies in surgery (mixed, augmented ,virtual reality)
- Technologies to enhance patient safety and quality improvement
- Video-based assessment of surgical procedures
- Automated skill assessment
- Ergonomics and human factors in surgery
- Team dynamics assessment
- Surgical data science
- Digital surgery
- Healthcare robotics
- Virtual reality simulators
- Surgical coaching
- Serious gaming for training
- Hospital and OR management systems
- Device and strategies for OR translation
